

FREE STANDING RECTANGULAR AWNING

Diablo 3x4 metres (12.0 sq m)

Free standing double sided awning with adjustable double sided canopy. Retracts back into awning housing when not in use.

A long handled, wind-up crank helps make the four step operation to lower and lift the awning arms into maximum position easy or adjust to the desired angle.

Comes with 2 'x' shaped concrete ballast frame bases.

Textured Licorice

*Olefin Fabric (U.P.F. 20 to 30 or 95% to 96% U.V. Protection)
This fabric is known for its strength and resistance to abrasion, staining, chemical, mildew and sunlight degradation and fading. It is also known for its quick drying ability.

Jet Stream Range of Cantilever/Side Post Umbrellas

Jet Stream 3.5 metre Octagonal (9.2 sq m)

All **Jet Stream** Side Post umbrellas rotate through 360 degrees with foot lock control and come with 'x' shaped concrete ballast frame bases and ground mounting plate for securing onto concrete base.

Finger light – 'easy track' variable angle tilt to 25 degrees with locking wheel.

Wind-up crank lift on mast housing.

Spring loaded, adjusting canopy tensioning finger ends at the bottom of each arm keeps canopy edges taut and greatly reduces wear and tear on canopy end fixing points.

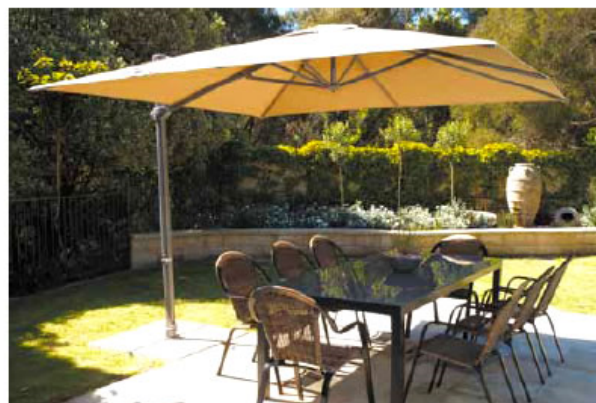

Retractable L.E.D. light bracket on hub of **Jet Stream** umbrella, means the optional L.E.D. light can be easily mounted onto the umbrella for use at night or for atmospheric lighting.

Optional resin base with retractable wheels. Fill with stone ballast.

Jet Stream 3.0 metre Square (9.0 sq m)

COLOURS AVAILABLE

Rosewood

Stone

Platinum

Natural Sand

*O'bravia™ Solution Dyed Polyester Fabric (UPF 50+98% U.V. Protection) This fabric is known for its superb strength, durability and excellent colourfastness.

CENTRE POST RANGE

Sea Breeze 2.7 metre Octagonal - (5.5 sq m) and Sea Breeze 3.3 metre Octagonal (7.9 sq m)
2 piece 38 mm pole with button lock. Frame in silver anodised finished aluminium.

Sea Breeze unique elbow on umbrella pole allows canopy top to tilt on its own vertical axis.

Sea Breeze wind-up crank lift to open and close umbrella. Tilt to any variable angle up to 20 degrees by rotating collar on winder housing.

Windward 3.0 metre Octagonal (6.7 sq m)
Timber framed umbrella with 2 piece 38 mm timber pole with 'brushed' cast aluminium connector and winder.

Windward wind-up crank lift handle in 'brushed' aluminium to open and close umbrella.

Breeze 3.0 metre Octagonal (6.7 sq m)
1 piece 38 mm pole powder coated aluminium framed umbrella. The unique telescopic pole lowers arms on opening and raises arms on closing. (Great for use over tables).

Breeze unique 'easy glide', finger touch lift for opening and closing canopy with locking wheel.

COLOURS AVAILABLE

Textured Charcoal

Textured Taupe

Textured Champagne

Textured Toffee

*Olefin Fabric (UPF 20 to 30 95% to 96% U.V. protection)

Umbrella Bases 22kg, 30kg, 37kg Black coloured concrete

Base Recommendations:

This is only a guide and is the minimum required. If in doubt or if placed in a more exposed location, more weight is advised.

22kg Umbrella Base

Black coloured concrete base with carry handles. Tube adapts to suit 38mm to 48mm umbrella poles.

*Suits 2.7m Sea Breeze, Windward 3.0m umbrellas

30kg Umbrella Base

Black coloured concrete base. Tube adapts to suit 35mm to 54mm umbrella poles.

*Suits 2.7m and 3.3m Sea Breeze, Mistral 3.0m, Breeze 3.0m, Windward 3.0m umbrellas

37kg Umbrella Base

Black coloured concrete base with locking wheels. Tube adapts to suit 38mm to 48mm umbrella poles.

*Suits all umbrellas including Sirocco

INNOVATIVE, STYLISH AND FUNCTIONAL

Cantilever/Side Post Sun Umbrellas

These umbrellas are easy to use and allow you to follow the shade as the position of the sun changes. **Just wind the crank handle and the umbrella opens effortlessly.**

PLEASE NOTE

Never leave an umbrella up and untended. Close your umbrella during periods of wind and other inclement weather conditions and when not in use. As stated, damage by wind and other acts of nature are not covered under warranty. Use umbrella cover supplied when umbrella is closed. Always ensure your umbrella is securely fitted to the correct base. Do not use excessive force opening or closing your umbrella. If it won't open, draw the arms out and check for tangled arms. Refer to warranty conditions and care instruction card included with purchase.

*U.V. RATING

It is vital for umbrella users to understand that they could receive many times more U.V. from sunlight reflected under the umbrella from paving, concrete, sand, water and other reflective surfaces, - than will be transmitted through the umbrella.

Pull downwards on the handle to tilt the canopy. The sun umbrella tilts on its own vertical axis through to 25 degrees.

The Side Post **umbrella rotates** on its own axis through 360 degrees. **Use the foot pedal to lock the umbrella at the desired position** for maximum shade.

When no longer required, close and tilt the canopy back onto itself, ready to be covered by its own fitted cover.
